AVAILABILITY:

Except as noted below, service under this rate is available to all Customers, except that this rate is not available to any Customer with a measured demand of 200 kW or more recorded during any billing month or whose average consumption during any four consecutive months is greater than 7600 kWh per month unless the customer is a net metering customer that is a farm system, as defined in, and authorized by a certificate of public good, pursuant to Public Service Board Rule 5.100 ("Farm System Customer").
